## Software Developer

(514) 802-1614 • dario.mercuri31@gmail.com • linkedin.com/in/dariomerc

### WORK EXPERIENCE

---

#### Angular Software Developer

Nov 2022 – Nov 2023

SeeMyApps, Saint-Laurent, QC

Worked for a startup specializing in online customer engagement and CMS services for businesses.

- Built a prototype SASS application from the ground up in Angular, .Net and MongoDB.
- Revamped the look and feel of multiple company services in both Ionic and Material.
- Planned and executed the integration of a Google Actions Center API into existing company software.

#### Laravel Software Developer

Apr 2022 – Jun 2022

MindGeek, Montreal, QC

Collaborated with a small agile team of ten to implement, discuss and fix various features on multiple company services. Terminated due to a corporate layoff following the resignation of the CEO and COO.

- Assisted in the design of a custom API to track various information for an SMS service (phone numbers, messages, api keys and requests, etc)
  - Setting up various crud pages within the admin portal.
  - Middleware error handling and api request throttling.
  - User roles and permissions.
- Updated incorrect database values in the development team company portal.

#### Computer Technician

May 2020 – Feb 2021

Private Client, Saint-Laurent, QC

Built, maintained and managed hundreds of computers for cryptocurrency mining.

- Installed and replaced all necessary hardware (CPU, GPU, RAM, etc)
- Ensured all hardware drivers, operating systems and software were up to date.

#### Junior Web Developer

Jan 2020 – Apr 2020

SignatureWEB, Dorval, QC

Worked on two client websites during a four month internship.

- Updated the functionality on a real estate company's new website.
  - Connected frontend to ExpressionEngine CMS.
  - Created image carousel.
  - Implemented OpenStreetMap API.
- Assisted in the backend development of a Basketball league statistics website.
  - Worked on a custom leaderboard API to calculate various statistics for match and tournament data in a basketball league.
  - Filters for the leaderboard API.
  - Sending a league invitation email to multiple addresses.
